Summary

Software Engineer with experience building **scalable web applications and REST APIs** across frontend and backend systems. Skilled in **React, Node.js, Express, and SQL/NoSQL databases**, with practical experience delivering production features, migrating systems, and supporting **CI/CD pipelines using Azure DevOps**. Strong foundation in **data structures, algorithms, and distributed system concepts**, with a focus on writing clean, maintainable, and reliable code.

Work Experience

Infocusp Innovations

Ahmedabad, Gujarat

Associate Software Engineer

Feb 2026 - Present

- Develop and maintain full-stack web application features across **React frontend and Node.js backend services**.
- Collaborate with cross-functional teams to deliver scalable product features and improve user workflows.
- Contribute to API integrations and data flow improvements across backend services.

MAQ Software

Noida, Uttar Pradesh

Software Engineer 1

Jan 2025 – Jan 2026

- Contributed to migration of a production web platform to a modern environment while maintaining existing user workflows.
- Implemented **frontend and backend features using JavaScript, React, and Node.js** for new product capabilities.
- Integrated **REST APIs** with UI flows and backend data models to support new business functionality.
- Assisted in setting up **Azure DevOps CI/CD pipelines**, supporting automated build and release processes.
- Debugged migration issues across frontend and backend systems and resolved edge-case failures to stabilize production deployments.

Datacare Softech

Ahmedabad, Gujarat

Full Stack Intern

May 2024 - Jul 2024

- Built reusable **React frontend components** for internal data-driven applications.
- Developed and tested **REST APIs using Node.js and Express** for CRUD operations.
- Collaborated across requirement discussions, development, testing, and deployment cycles.

Education

Nirma University

Ahmedabad, Gujarat

Bachelor of Technology, Computer Science and Engineering (7.51/10 CGPA)

Aug 2022 - May 2025

Darshan Institute For Diploma Studies

Rajkot, Gujarat

Diploma, Computer Engineering (9.65/10 CGPA)

Jul 2019 - May 2022

Projects

MoneyMeven - Personal finance management with expense tracking

[Github](#)

- Web application for tracking income/expenses with clean dashboards and analytics.
- Built using **React, Node.js, Express, PostgreSQL**, focusing on clear data flows and modular API design.

AI Quizzer - Adaptive quiz platform

[Github](#)

- Microservices-based quiz system with separate services for auth, quiz logic, and AI-driven question generation.
- Developed using **React, Node.js/Python, MongoDB**, with an API gateway for routing and structured service communication.

Skills

- **Languages:** JavaScript, C++, C, Java, Python
- **Database:** MongoDB, SQL, PostgreSQL
- **Tools:** Git, GitHub, Postman, Azure DevOps, CI/CD Pipelines

Achievements

- **Smart India Hackathon 2023 - College Level 3rd/90 teams**
- **LeetCode Rating: 1924 (650+ problems)**
